Notes From DeeDee,
There isn't much good that can be said for 2020 as it has been a trying time for all Americans. We wanted to express our deepest sympathies for anyone who has affected by the virus. Please reach out if there is anything we can do to help. On a positive note we have rearranged the shop so we can start our classes back up and offer appropriate social distancing. We have a two month calendar with lots of Machine Days and Embroidery Clubs so that anyone who has any questions about their machine can get in to the shop. We are also offering back to basics with quilting and freemotion quilting classes. Plus we have some interesting computer classes to help learn all aspects of your machine and software. We would also like to remind you that Janome has online classes every weekday. If you have any questions on how to attend these online classes we are always here to help. We can not wait to see everyone.
Happy Quilting

**We're
Back**

We have changed our classroom to accommodate 5 students and still offer social distancing. We are so excited to get back in the classroom.

Quilting Basics Donna

We are taking things back to the beginning for anyone who is curious about basic quilting skills. Over the years we have learned lots of tips to make quilting easier and we are eager to share what we have learned. Class is free with purchase of supplies from CQ.

**Freemotion Quilting
Donna**

Freemotion quilting is such a liberating way to create your art on fabric. Learning to control your machine speed and stitch length is so essential and we can't wait to help. Class is free with purchase of supplies from CQ.

Mach Day

DeeDee/Donna

Sometimes working with a sewing machine can raise a lot of questions or maybe your machine offers a technique you haven't tried. Well there is no reason to work on it on your own. We are here to help. Class is free with purchase of machine from CQ.

Embroidery Club

DeeDee/Donna

Your embroidery machine offers so many amazing features that it is hard to learn them all right away. We would love to help you learn as much about these features as we can. Class is free with purchase of machine from CQ.
