BODICE MOULAGE - UNDERSTANDING YOUR PERSONAL FIT - The Moulage was developed and used in couture houses to reduce client fitting times. A nemesis for the average home sewer is fitting. Construction techniques and skills can be learned and practiced, but learning to master perfect fit on your body requires learning a few new skills and patience to perfect your efforts. In this series of classes you will learn to create a moulage, which in turn can be used to draft personal slopers, that can then be used to draft style patterns. The moulage has zero wearing ease whereas the sloper has minimal wearing ease. After adding wearing ease you can add style ease and design details to create a unique pattern knowing it will fit your body. This is a 5 session series. **CLASS FEE: \$40 per class or all 5 at a discounted rate of \$150.** Note: If you miss a class you can make it up the next time the series is offered. Individual make up classes will not be offered. Supply list will be given at first class session.
