— FABRIC AND SEWING BOUTIQUE —

Yarn Dyed Scarf

MATERIALS:

2 1/2 yd Yarn-Dye, Homespun, Woven Stripe or Plaid

*Fabric with a width of 42" will make up to 4 scarves!

1 spool High quality thread (all purpose poly)

CUT:

- Cut the selvages off of both sides
- Cut 4 strips *lengthwise*, each about 10" wide*
- Customize the length to each person
 - 90"= *extra long scarf*, 81"= *long scarf*, 72"= *average scarf*

FRINGE:

- Pull threads out from all edges, using an awl, seam ripper point or a pin to tease them out if needed, (fig. 1)
- Continue until the desired fringe is achieved.
 - A 1/2" fringe length will create an elegant look.

STITCH*:

- To stabilize the edge, stitch 1/8" in from the fringe. Use a standard straight stitch length of 2.5mm (fig.2).
- If you want your stitching to blend in, use a matching color thread. Using a contrasting color thread becomes a fun accent!
- You can do one or several rows of stitching to stabilize the fringe

*Stitching the edge is optional! Many yarn dyed fabrics are tightly woven and will not continue to fray while being worn making this a really easy gift to make if you don't have a sewing machine or are creating with kids

TIE:

- Put your scarf on and tie it as you like! There are so many ways to wear a simple scarf like this and it will add character to any outfit, making it an excellent gift!

Enjoy!

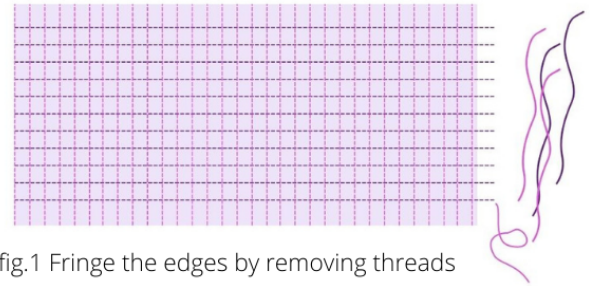

fig.1 Fringe the edges by removing threads

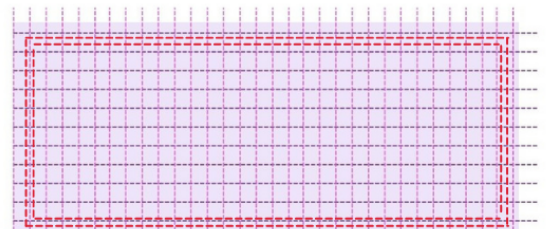

fig.2 Stitch 1/8" inside the fringe. You can add a second row of stitching OR none at all!
