

Supplies Bardot Bucket hat

Pattern, and supplies listed on pattern

Sewing machine, Thread to match both fabrics

regular foot

80/12 Microtex needles

Sewing clips, pins

Scissors, pinking shears

A mini iron and ironing pad if you have one

To prep for hat class - Measure your head to determine the hat crown size you need, then decide which brim you want. Cut out the color coordinated pieces for the just the crown size and brim you want, match the hexagons, tape together and then cut out. You will have 3 pattern pieces. Save the rest for making different size hats.

Come to class with the exterior fabric, lining fabric cut and fused to SF101 and fusible fleece following directions on the pattern pieces

Hints: Allow time at home - Ironing the SF101 and fleece before you come to class may take an hour.

Follow ironing directions, use a damp pressing cloth, don't slide iron, pick up and move iron. Let ironed fabric cool before moving. This will make your SF101 secure and smooth.
