

EQ8 Fundamentals

Instructor: Susan Akre

This class will begin by explaining the basics of the EQ8 design software. Get oriented to the different icons, worktables, and terminology. You will work on creating your own quilt design and explore different layouts, border options, fabric selections, and block manipulations. Learn how to print your quilts, yardage, foundation papers, and templates.

In the second half of the class, you will learn how to use EasyDraw to create your own pieced block or appliqué motif. Learn how to create a custom library of blocks and edit existing blocks from the EQ library or sketchbook.

You do not need to own a copy of EQ8 for this class. A free 14-day trial version of the software will be provided to students who have not yet purchased their own copy. EQ8 is available for both PC and Mac and either version is welcome in this class.

Supplies:

- Laptop with EQ8 software installed and validated with the most recent updates
 - Please contact Susan (susan@quiltersquest.com) prior to class if you will be using the free trial or if you have questions about your software
- Laptop power cord
- Mouse (a touch pad will work, but having an external mouse will make drawing easier)
- Extra batteries for your mouse if it's wireless
- Mouse pad
- Pen and paper for taking notes
- If you have a wireless hotspot or a Comcast/Xfinity username and password, bring it so that you can connect to the internet

As always, students receive 10% off all class supplies purchased from Quilters Quest.
