

## Supply List for Shopping Tote by Sallie Tomato

Create wit Cork Fabric book by Jessica Sallie Kapitanski

Sewing Machine, power cord, and foot control

Microtex needle 90/14

Thread

Utility foot, and foot for topstitching. The blind hem foot G works well for topstitching. The hp foot is extremely helpful in making this bag

Magnetic snap

Fusible fleece, firm stabilizer for bottom of tote.

Fabric glue, or double sided 1/4" tape

Chalk marking pencil, or marking pen. Sharpie pen works well for marking on the wrong side of cork fabrics.

Follow pattern instructions for interfacing and stabilizer

Sharp scissors. Sewing clips. Have a tape measure, or a small ruler handy for strap placement on the tote.

This tote is very sturdy and super classy when finished.

See you there.

Beth :)
