Tech Tip of the Month

Lint

Lint occurs naturally the more you use your sewing machine. When brushing lint off of your machine, make sure you use the small brush that came with your machine and brush the lint away from the machine. Try and keep the lint from going further into your machine!

We want your opinion on what classes we should offer!

Fill out the survey in the store, drop us a line via Facebook or email us at sales@northernthreads.biz

We are looking at Intro to Quilting, Intro to Sewing, Make a Jelly Roll Rug, Make your own Kuspuk, Make your own Parka, Snow Skirt, Bag making class, and even a hand bead embroidery! If you have another idea, let us know!!

Sewing/Quilting Tip Of The Month

Quick Tips

Always keep the presser foot raised while adjusting thread tension!

Too-big seam allowances can be trimmed, but too-small ones can result in having to restart your project.

When in doubt, rethread your machine (top and bottom)
