Class Supply List

Please complete the following class preparation BEFORE class day so that you can make the most of your time with the instructor. If you have questions about the class prep work, please visit us in the Longmont store or call BEFORE class day so that we can help you.

Please read the pattern thoroughly so that you have a general idea of what we will be doing. Don't get overwhelmed by details, we will simplify in class—just read through it so you get the idea.

Decide on what size quilt you will be making. Use 9 1/2" squares for the flower blocks and then add 8" for borders so that you have a ballpark idea of the finished size. For example, I wanted to make a baby quilt so I used 3 blocks across and 4 blocks down, plus the borders. This ends up to be a 45" x 54" finished quilt.

Once you decide on your design / size, you will know how many flower blocks you need. Cut out that number of 10" squares from your background fabric. (We will trim the final blocks to 9 1/2" in class.)

Cut out your flower templates from your desired template material (plastic or cardboard). Tip: make several paper copies of the template from the original pattern so that you have extras if you need them. This step is only for getting your templates ready for class, we will cut out your flower fabrics in class.
