Standard Presser Foot

For general sewing projects with overlock and combo stitches. The standard cover presser foot is already attached to your machine and is suitable for all the stitches made on the machine.

*Note- If the machine has coverstitch option, you may also receive a separate coverstitch foot.

Standard Presser Foot Markings

Hemmer guide for Cover Stitch

Blindstitch Foot

The blindstitch foot works on almost all fabric weights and lets you turn up a hem in the depth that works for your project, from tablecloths to skirts to custom-made draperies.

This foot is available in two sizes, one for stitching light to medium weight fabrics (0.05) and one for medium to heavy fabrics (1.0)

Elasticator

- The elasticator is a foot that is very useful when stitching swimwear, lingerie, and dance wear.
- It works with narrow elastic, clear elastic, braided elastic and other types of narrow elastic, and stretches the elastic for you as it goes under the needle.

Multi-Purpose OR Beading/Sequin

It has a channel that holds dimensional items such as cording, beads, and zipper coils so they are easily fed and incorporated into or next to the overlock stitch.

Reach for it when you want to sew piping, attach beads, insert zippers, and more.

For creative work with beaded or sequin tapes up to a width of 4 mm (bernette) 6mm (BERNINA)
The side groove serves as a guide and for couching cords.

Gathering

The gathering foot not only does simple gathering but will also gather one fabric while stitching the gathered edge to a flat piece of fabric.

Cording

Used for sewing thin cord, wire, fishline, perle yarn or fine yarn into a rolled hem.

Ideal for reinforced edges, decorative ruffles and shapeable bows.

For cords up to a max. diameter of 2 mm

Piping

The piping foot is qualified for creating or sewing in piping/braids, or even both actions in one step.

L8 Series – 2 Sizes available

The Foot #L/C16 L is used for mediumweight to heavy fabrics and for piping up to maximum of 5 mm.

The Piping Foot #L/C16 S is used for light weight fabrics and for piping up to maximum of 3 mm.

Belt Loop

The belt-loop foot is used to fold bias or straight binding, which it then quickly and easily turns into straps or belt loops with the cover- or chainstitch.

*bernette b42/b48 ONLY

Hemmer

The hemmer foot quickly and easily sews even seams with a depth of 2.5 cm. A narrow or wide coverstitch can be used to neaten the cut edge.

*bernette b42/b48 ONLY

Ribbon Couching

For couching narrow ribbon. With the help of the adjustable guide, ribbons of various widths can be guided precisely into the seam.

L4/L8 Series and other BERNINA models- the tape guide of this foot is incorporated into the standard presser foot

Hemmer and Lace

For sewing lace, trim and tapes onto hems. The bottom edge of the fabrics is simultaneously neatened with a narrow or wide coverstitch, creating a flat joining seam.

*bernette b42/b48 ONLY

Lace

This presser foot sews tapes or lace below a fabric edge, which is simultaneously folded to form a hem. A coverstitch neatens both edges at the same time, whilst the material is folded by 1 cm.

*bernette b42/b48 ONLY

Clear Standard

The transparent overlock foot eases precise guiding of fabric, for example for sewing corners or circles.

Your standard presser foot but clear!

Coverstitch Compensating

The #C12 Coverstitch/Compensating Foot is ideal for all cover- and chainstitch sewing along unilateral fabric thicknesses. Markings for the needles allow to guide the fabric precisely.

Unilateral fabric thickness means in particular, multistep bindings, hems with elastic tape, flat joining seams or seams with lace or elastic lace.

* L890 Only

Binding Attachment

The binder attachment creates practical edge finishes with *unfolded* bias tape in a width of 40 to 50 mm.

Self-cut bias tape or cross grain knit strips can also be used for a professional look.

*b42/b48 ONLY

Single Fold Binder for unfolded Tape

The double fold binder folds upper and lower tape edge for perfect bound edge. The unfolded tape is inserted through the guide rail, folded under on either side and sewn on with a cover- or chainstitch. For the personal look, the tape can also be self-cut.

Tapes of 36 mm width result in a finished binding of approx. 10 mm.

An accessory holder is required to attach the binder.

The Single Fold Binder folds under the upper side of the fabric strip only. The lower side is secured with the thread in the chain looper. Any excess fabric is then trimmed away using scissors

BERNINA

Double Fold Binder for Unfolded Tape

With the single-fold binder, fabric edges and necklines can be perfectly bound with tape. The unfolded tape is inserted through the guide rail and folded under on the upper side. The lower side is neatened with the chain looper thread. For the personal look, the tape can also be self-cut.

Tapes of 40 mm width result in a binding of approx. 10 mm.

The Double Fold Binder folds both the upper AND lower edges of the fabric strip. This is great for making a beautiful bound edge with zero raw edges

An accessory holder is required to attach the binder.

You will also need the Accessories Holder to attach the binders to the machine.

This base works with both of the binder attachments and is adjustable so it can fit various machines beyond just the L 8 Series machines.

Accessories Holder swings out to make it super convenient to attach the binder AND insert the fabric into the binder attachment.

Once you've attached the base, then swing it back into place and adjust the placement of the opening of the binder to where you want it.

You will notice that there are two sets of screws included with the Accessories Holder-look closer and you will see they are different lengths.

The longer set is for attaching the holder to the BERNINA L 890. The shorter set works with the bernette 42, the bernett 48, and even on the BERNINA L220 and the BERNINA 009DCC.

I highly recommend you check out this article for more information on the new Binders

BERNINA OVERLOCKER BINDERS: AN INTRODUCTION

March 28, 2022, Mary Beck

With the BERNINA overlocker binders, you can sew a binding or add straps to any project quickly and efficiently! [More ...](#)
