FOR THE LOVE OF SEWING

Every time you use your machine, and let's face it... we buy machines to use them, fabric and thread particles are left behind. The more you use your machine, the more likely there will be a build-up, which will eventually cause your machine to not function at its full potential. A regular cleaning & service appointment at Flash will keep your machine working the way it was intended.

## Sewing Machine Tech Service at FLASH

**Special Note:** we are often asked...what is the difference between how the technicians at FLASH will service my machine and others might do it? The best response we can provide is this: there is a distinct difference between getting your car detailed by an expert technician and hosing it off with a garden hose. In our mind, there is **NO** fast way to get it done.....only the **RIGHT** way. Which is one of the reasons why we implemented our appointment schedule. Make that appointment. It's extremely easy. Drop her off at 10:00 AM. Then go shopping and have a nice lunch....and we will see you after 1:30 PM

Baby Lock or Bernina Certified and Trained Technicians

## SUMMER IN STYLE

Many of you know that Bridget has been enjoying making her granddaughter dresses, and we thought you might like to join in on the fun as well. Bridget has been creating beautiful summer dresses for her granddaughter using the serger and having Riley finish a seam or a hem. It's been so much fun, and now you too can make a summer dress and perhaps involve your own granddaughter in the process. This project presents a wonderful opportunity for you and your loved ones to bond over sewing and create something special together.
