## How to Use a Walking Foot

A question we get at Neal's quite frequently is how to I attach my walking foot? This video is a great guide. It also answers a question... Do I need a walking foot? Although this particular video is done by Babylock, the principals are the same for all machines.

What is a walking foot? Why do you need it? And why does it come with most Baby Lock machines? Anita from Anita by Design answers these questions and more in this helpful video about one of the most versatile feet!
