

Featherweight Maintenance class...suggested supplies needed

Singer Featherweight 221 sewing machine: black finish preferred over white machines since white ones are set up differently.

Foot pedal, presser foot, bobbin, needle, snips or small scissors

221 manual (I will have a 5x7 repro version available for \$7 each)

2 contrasting colors of the same type of thread, fabric scraps

Sewing machine oil (any brand... Telescoping spout helps)

Motor lube, if you have it (I will have lube available to sell)

Two towels, one for the table, one for your lap, apron or old shirt

Container for parts that will be removed, magnetic dish, if possible

Q tips, old toothbrush, or other soft brushes for cleaning, small rags such as cut up T shirts.

Flat edge screwdrivers... a long shafted one is helpful, &/or a very short one for the throat plate screws, and tweezers

flashlight or headlamp, small plug in light if preferred

Glasses for close-up work

Extension cord, strip plug ,,,, some available there
