

Mini Jazzy Jolt

- If you cut carefully, you can make a mini jazzy jolt with half width strips (about 21" wide).
- Be sure you offset the strips 1".

- Place the 60 degree line on the third seam as shown.
- You may need to trace the 60 degree line onto your mini ten tool.
- You can also use the upper portion of your regular ten degree for this design.
- Assemble your Jazzy Jolt using the instructions found on pages 36-39 in the Platinum Edition of Quilts Without Corners.

Here is a quick guide to the conversion from the 50" to the 25" strip sets.

50" strip set	25" strip set
3 1/2"	1 1/2"
3 1/2"	2"
4 1/2"	2 1/2"
5 1/2"	3"
6 1/2"	3 1/2"
