

- Measure your sewn circle.
- Cut your paper template out, following the line that corresponds to your circle size.
- Place the template on the fabric fold as indicated.
- Cut four fabric pieces using the template.
- ¼" seam allowance is included with the template.
- Sew the framing piece to the pieced circle. Sew with exact ¼" seams with the frame piece on top and the pieced circle against the bed of the sewing machine.

**First check your copy!**

- Measure along the base of the template.
- It must be 10 ½".
- If not try reprinting making sure you don't have your printer set for "print to page" or "scale to page". These setting will shrink or enlarge your image.
