

Thanks Banner

What are you thankful for?

Supply your guests with slips of paper to share what they are thankful for this season. They can write, roll it up and tuck it in the window pockets of the Thanks Banner. The 3-D Attic Window pattern makes it possible!

Other events for banners include Birthday wishes, Christmas treats, or Wedding blessings! Make any event special with this fun project. Enjoy and thanks for being our loyal friends!

- Cut The D fabric with the Attic Window tool using the full tool.

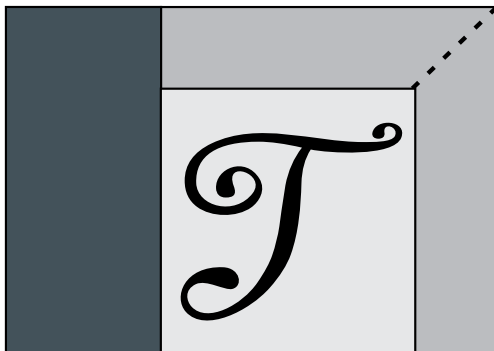

You have the option of embroidered letters. Leave plenty of space between each letter for the entire tool to be cut out.

Assembly

- Follow the instruction on your Attic Window packaging booklet to make each Attic Window block.

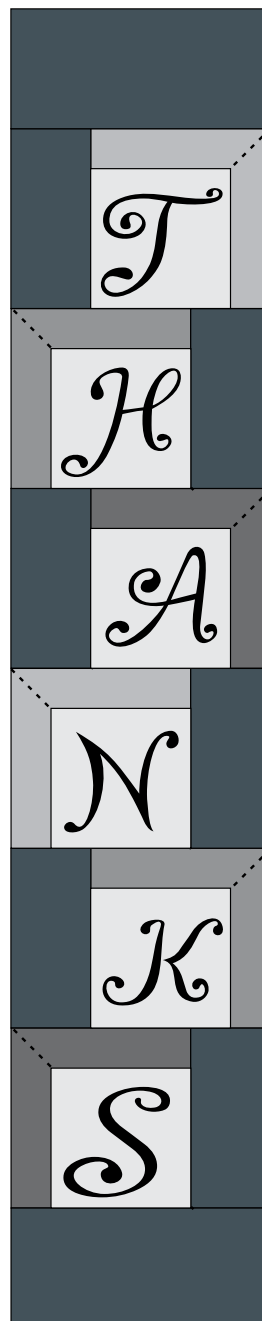

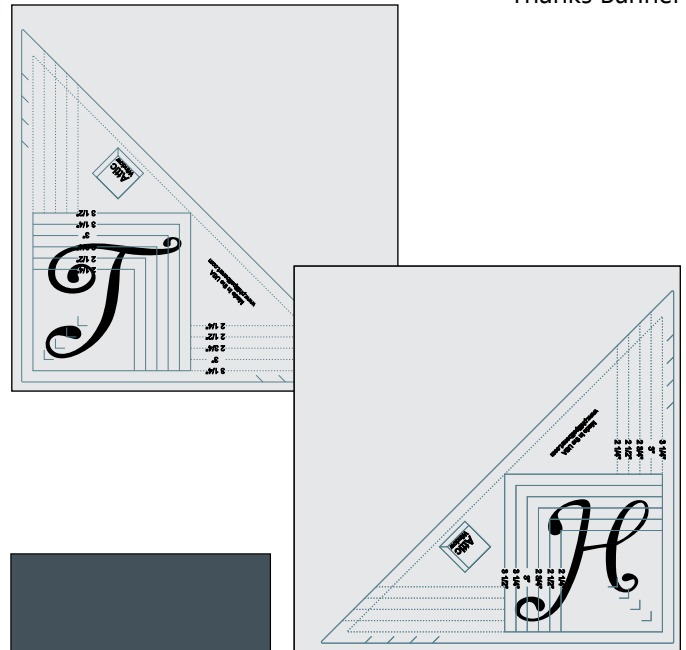

Be sure to pay attention to which side the window is placed on. Left and right letter placement gives the banner its playful nature.

- Trim the squares to 5".
- Add 2 ½" x 5" accent pieces to the window side of the Attic Window blocks to create a unit.

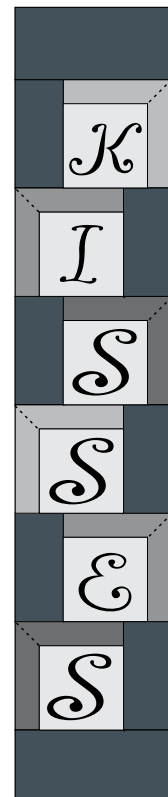

- Sew each unit together in order.
- Add the **two** 3 ½" x 7" accent pieces to each end of the banner.
