Stargello Project

Although some of you may prefer it, the Stargello project is not suited to a one day workshop. The Twinkler is very similar, but is achievable in a workshop. In the afternoon I will demonstrate the Stargello so you can see the difference between the two projects.

I think the Twinkler is fun, but if you do not want to make it, I suggest making at least one section to give you the foundation for making the Stargello.

For only one Twinkler section, you can make a 14" strip set of five 2 ½" strips or simply bring a striped fabric approximately 9 ½" x 14" for the wedges. For the A fabric you'll need approximately 9 ½" x 6". For the Background sections, bring approximately 11" x half width piece.

Sew at least one strip set together before class. Ideally make both of them

Becky and I are looking forward to seeing everyone!
