

Simple Alphabet Bracelet

Everyone loves to wear beads—and especially when it spells out a name! Make one for everyone on your Christmas list.

WHAT YOU NEED FOR 1 BRACELET:

- Gossamer elastic beading thread
- Scissors
- Alphabet beads in desired colors and styles with holes large enough for thread
- Small pearlized beads in desired color with holes large enough for thread
- Tacky crafts glue

HOW TO MAKE THE PROJECT

- 1 Cut the elastic beading thread to about 6 inches longer than the finished bracelet. Put a piece of masking tape over the end to keep the beads from falling off.
2. Beginning stringing pearl beads and alphabet beads directly onto the elastic thread in desired order, spelling the desired name. Remove the masking tape and tie the two ends together into a double knot adjusting to fit if necessary. Carefully dot a drop of glue on the knot. Allow to dry.
