

## Candle Bracelets

Give these jeweled candle trims by stringing favorite beads onto elastic cording. The beaded cording can be removed later and enjoyed as pretty bracelets.

### WHAT YOU NEED:

Gossamer elastic beading thread

Scissors

Beads in desired colors and styles  
with holes large enough for thread

Tacky crafts glue

Square candle holders with candles

### TO MAKE THE PROJECT:

- 1 Cut the elastic beading thread about 6 inches longer than the finished bracelet to fit around candle. Put a piece of masking tape over the end to keep the beads from falling off.
- 2 Begin stringing beads directly onto the elastic in desired order until desired length. Remove the masking tape and tie the two ends together into a double knot, adjusting to fit. Carefully dot a drop of glue on the knot. Allow to dry. Stretch bracelet around candle holder.
