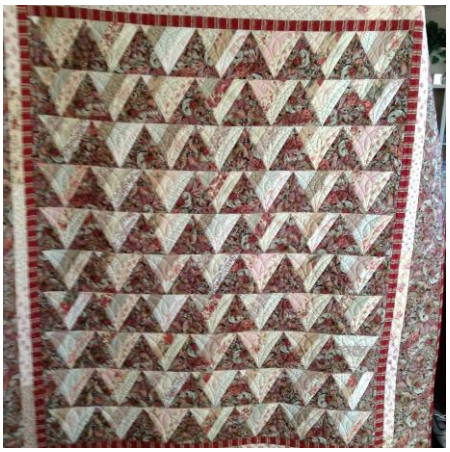
APRIL -Forum

From March's strips, we now challenge you to get acquainted with the 60 degree mark on your ruler. Each of the pictured quilts was made from left-over strips and a clever use of the ruler.

At our April meeting's forum time, you'll receive a page of instructions showing you how this can easily be done. The sky is truly the limit! From Thousand Pyramids (strip sets sewn and re-cut),



to Hexies made from all sorts of fun fabrics (also strip sets sewn and re-cut), you can make SO many great quilts. We hope this will spark some creative juices as you dig out those treasures in your fabric stash.
