

Philanthropy

The goal of the Philanthropy Group is to make quilts that bring comfort to people in need. This includes young children and adults that are grieving, ill, abused, had homes destroyed, orphans, and veterans. Organizations that have received quilts include the Dove Center, Youth Crisis Center, Dixie Regional Medical Center, Veterans Home, Orphanages, Police and Fire Departments and many others.

Members help by working on kits that can be picked up at a Guild Meeting. These quilts vary in size and range in skill level from beginner to advanced. There are also quilts that need to be machine quilted. All materials are donated to the Guild and all labor is donated to make the quilts. Once they are completed, the quilts are donated to a variety of sources that help to bring comfort to many, from young to old, to provide the comfort needed in difficult times.

This is a great way to learn traditional and new quilting techniques from others while providing those in need a quilt for their comfort.
