

Flavin Glover

Colorful and Creative Log Cabins

For the experienced quilter ready to create blocks full of color that look three-

dimensional. Choose from a variety of blocks and design layout grids in order to suit your preferences. Learn accurate, streamlined construction techniques for blocks with logs cut on 60° angles. Explore how to use color and value to enhance the illusion of depth. See the designs develop as you cut and sew blocks in class. Examples such as Zinnias, Diamonds that Shine, Spinning Stars, and Top of the Morning will be shown in class for inspiration and guidance.
