

Teddy Pruett

Pulling Strings

String quilts have been popular for over one hundred years as a way to utilize every little piece of fabric. Those of you who need to "stash bust" (and who doesn't?) will love this

class! Learn several ways to piece with strings. Those long, skinny leftover bits of fabric that are too small to do anything with are perfect for this class. Great news: Nothing to buy for this workshop! Just bring bits and pieces of any leftovers and see how valuable they can be under the right circumstances.

Precutting will speed up the process but isn't necessary.
