

Bonnie Dickerson

Bonnie officially joined our team early in 2020, however the pandemic delayed her being available to work until mid-summer. This delay did not curb her enthusiasm or the fun we have with her on our team.

Her main thing is quilting, but she is also learning to knit. Because Bonnie enjoys being around people, especially ones that have the same interests, working in our shop is a natural fit.

She says she just can't live without her sewing room and loves her new Hydraulic sewing chair from our sewing department. Her most memorable project is an Underground Railroad quilt she is remaking because sadly, it was destroyed. A retired teacher, she spends her spare time gardening and with her family. Fun fact: Bonnie has walked in over 14 half marathons and does several 5K's during the warm months.

We love her warm smile and gentle nature. She may be one of our recently added staff, but she feels like a long-time member of our stitching family.
