

Debra Black

There is a saying around our shop. “Debra doesn’t do random.”

A valuable member of our staff for over eight years, she does beautiful work in a variety of modalities. She is also a former elementary school teacher who continues to learn new techniques, *as long as it not random*. All her projects are calculated and planned from start to finish. This is why she is our main kit cutter and packer.

Debra is constantly stretching herself to learn new skills and most recently she has accepted the roll as our Kimberbell “Queen” and educator.

Her favorite projects include anything Kimberbell, quilt tops, knitting, crochet and counted cross stitch. She met her husband Lee while them were working as EMT’s 36 years ago. They share 2 sons and four grandchildren who benefit from all of Debra’s specialties in fiber arts.

You will find her in just about every department in our shop, because with so many skills she can cover all areas. Of course, that might mean she works in random departments, but don’t tell her, because she doesn’t do random!
