

Janet Vawter
"Knitting keeps my hands flexible"

Specialties: Spin, weave, knit, embroidery, sew

Favorites: Spun wool and good yarn and fabrics.

I knit because knitting relaxes me and keeps my hands flexible.

Most memorable project: The shepherd Santa and animals I made from one of my daughter's grand champion 4-H sheep. Everything in it comes from the flock. His beard is the natural wool, and the twine belt holding his robe in place had been used to bale the fleece before I spun it.

Best way to spend \$30: On yarn, of course.

I can't live without yarn and sewing.

My next project: A project for my granddaughter that is knit and sewn.
