

Virginia Green

Virginia has been employed with us from the very beginning. Our shop owner, Lyneen, claims Virginia as one of her adopted moms and part of what we lovingly refer to as our "adult daycare" staff. Young at heart and full of mischief, you would never guess her true age. We thoroughly enjoy her antics on a daily basis as do our customers.

Her current responsibilities include answering the phone, helping with paperwork, making shop samples, and keeping the back room staff in order. Her infinite knowledge of all types of crafting is a great resource for our staff, who she also treats like her own kids. She can do quite literally everything crafty, but her hand needle turned applique' is probably her best skill. She loves 30's fabrics, miniature doll houses, anything sweet to eat and gives all our staff interesting nicknames.

She has four grandchildren, five great grandchildren and lots of people who claim her as their own because of her loving generous nature. We enjoy having her on our team and if you get to meet her be ready to smile. She radiates joy and gives everyone a good laugh, sometimes when she is not even aware.
