

## Lined Reusable Grocery Bags

Cut two pieces 18"x36", one for outer and one for lining.

Cut two pieces 18"x4" for handles. For handle pieces, double fold to center lengthwise and topstitch long edges. Position handles to right side of outer fabric along the shorter sides, figure A.

Place lining on top of outer fabric, right sides together and stitch along both shorter sides, figure B.

Now align those two seams you've just sewn, right sides together, so that the outer fabric is on one side and the lining on the other, figure C. Stitch down both long sides, leaving an opening in one side of the lining for turning, figure D.

Turn the bag right side out and close the opening. Top stitch the top edge to strengthen the handles, figure E.
