

POPPINS BAG CLASS SUPPLY LIST

Instructor Jan Smith

This is a 2 day class so you will be able to complete your bag. The supply list is essential for you to complete your project. **Please read carefully** so you have everything you will need and do a check-off on the list please.

Please have your machine in good working order and your bobbin area clean. This bag will work your machine hard so you need it to be ready to sew well for you.

SUPPLIES YOU WILL NEED

Poppins Bag Pattern by Aunties Two Patterns which will include one set of the metal stays.
Pick up your pattern beforehand and pick your fabrics and supplies you need so we will be able to go right into making the bag the morning of the first class.

Sewing Machine

Sewing machine manual especially if you are not comfortable with your machine.

Thread to match your bag and pre wind your bobbins to save time.

It is important to use a walking foot for all the quilting unless your machine has the built-in walking foot. If you have quilting bars with your walking foot bring those as well and you won't need to do as much marking.

Power Cord

Foot Control

Slide on table or extension table.

New package of #90/14 sewing machine needles if you break a needle by chance you will want an extra.

Rotary cutter with a new sharp blade.

Long acrylic ruler for marking your quilting lines.

Wonder Clips are very helpful with this project.

Marking pencil I prefer the FriXion pen that irons off but you will need a chalk marker if you have dark fabric. Please pick a chalk marker that comes off easily.

Large, sturdy pins. I prefer the flowerhead pins for this project.

Seam Ripper

Small and Large Scissors

You need 30"/ double slide purse zipper. We will have them in the shop to purchase.

12 weight or heavy thread and size 7 hand sewing needle for sewing the bottom onto the bag. Aurifile, Sulky makes a 12 weight. This thread needs to match your FABRIC (C) or the fabric for the bottom of your bag.. This will be done on day two in order to finish the bag.
