

## **Charlie Caftan Supply List** **View C**

\*\*\*This pattern fits 0-20, we can customize it in class \*\*\*

The homework for this class is to **wash and iron** your fabric and to **trace your caftan pattern pieces** ONLY if you're measurements don't fit a size OR if you want to be able to use the pattern for other sizes later. Cut Stabilizer to bust measurement size before class.

*We will be learning how to size a pattern to fit **you**. It will be easier if you're between sizes to use Pattern Ease. Trace ALL the sizes that pertain to your measurements! (make sure all your pattern piece markings are transferred!!)*

Bust: \_\_\_\_\_ Waist: \_\_\_\_\_ Hip: \_\_\_\_\_

### **Material List for Charlie Caftan View C Maxi:**

CHARLIE CAFTAN PATTERN

FABRIC:

I used the 108" material and purchased 2 yards for a size 14, PLEASE measure your longest piece and add a bit more for shrinkage if you decide to buy the 108" wide material

\*\*\*The Store Sample is a Size 14 and the hem came down to my daughter's ankles who is 5'3". If you want it longer, please purchase a bit more fabric for the front and back.\*\*\*

OTHERWISE:

Follow the yardage found on the back of the pattern package under Fabric Requirements View C

Lightweight fusible interfacing according to pattern directions

Polyester Thread

Fray Check

**Pattern Ease if you are going to enlarge or grade your pattern – 2 yards OR the longest pattern piece**

**IF YOU WANT TO CUT OUT YOUR PATTERN BEFORE CLASS, I AM ASKING FOR YOU TO CALL ME FIRST!!**

**Day of Class:**

**Sewing machine** in good working order, and 2 FILLED bobbins. Bring all presser feet and accessories that come with your machine, including the owner's manual. We will use the standard foot for straight and zigzag stitch.

**Basic Sewing Supplies:** Scissors, seam ripper, needles, pins, rulers, fabric marking pencil or chalk, or a water erasable marking pen. The marks need to show up on your fabric, but you also need to be able to get them out

of the garment when it is finished.

**Thread:** A good quality thread that will match your project.
