**1-801 Split Rects®** You can toss your plastic templates aside for good because you use your Split Rects® tool instead. Learn how to make crisp, clean half rectangles or what Deb Tucker calls a Split Rects®. By using the Split Rects® tool, you do not have to worry about shaving your plastic templates any more or knowing which was a left side or a right side piece. There are 8 different size options with the Split Rects® tool. Your stars will twinkle with these strong points.
