Before Class Instructions:

Have your fabric pressed and ready. Class will be more meaningful if you can bring in your machine, but it is not essential. We recognize how difficult this may be. People are available to help unload from your car and reload. There may or may not be machines available to reserve. Ask if available. If using a store machine, bring hoops and an accessory box with you. If no machine is available for your use, please still come. We will not be working on a project; this is a process class to learn about your machines.
