#### **Before Class Instructions:**

Have your fabric pressed and ready. Class will be more meaningful if you can bring in your machine, but not essential. We recognize how difficult this may be. People are available to help unload from your car and reload. There may or may not be machines available to reserve. Ask if available. If using a store machine, bring hoops and accessory box with you. If no machine is available for your use, please still come.

We understand that these beauties are VERY heavy. If you can get it in your car and to our store, we will help you get it out for class and back in the car to go home.

This is a techniques class, not a project class. You will go home with samples, not a finished project.
