

Rose  
Jaydee Price  
© 2002

Jaydee says, this is a very simplistic rose and much can be done with it. You can use a variety of methods to complete the rose, including: needleturn, freezer paper or machine appliqué

You may choose to use it flat or 3-dimensional with embroidery in the throat of the rose for a nice finishing touch.

Try mirroring or flipping the pattern to make a circle of roses, or work it into a corner or border of a quilt. This pattern looks nice in any fabric but Jaydee likes to use batiks or hand dyed fabrics.
