

Jelly Weave Supply List

Teacher: Penni Albarran

I'm such a fan of quilts that use 2 ½" strips! This pattern *Jelly Weave by Cluck Cluck Sew* does not disappoint. It's very well written and easy to assemble. The block is very easy, and looks more difficult as it is set "on point", maybe a new setting for you to use. All you need is a 2 ½" precut roll, or cut your own strips from your quilter's stash and join in the fun.
