# WESTERN VEST #1501

SUGGESTED FABRICS: Outside shell: Light to medium weight cottons; medium weight silks such as pongee, broadcloth, shantung; linen; lightweight wool. **Lining:** Light weight silk, polyester or rayon lining OR for reversible vest, medium weight cottons or other fabrics compatible in care requirements with outer vest fabric. **Inner layer:** optional, but try a muslin foundation (preshrunk) or, for warmth, use cotton flannel that has been preshrunk.

OPTIONAL PIECING: The pieced unit on the second side, if you make the vest reversible, is a 4"(fin.) square with a 1/4" strip in the middle. Design suggestion: use 2 fabrics (A & B) for the wider, outside strips, and 1 fabric (C) for the narrow strip and the binding or piping. If you choose not to bind or add piping, reduce fabric requirement for fabric C by 1/3 yd. **FOR BINDING OR PIPING BUT NO PIECING,** change fabric C requirement to 1/2 yard for all sizes.
