

GRANT HOUSE
Sewing Machines and more.

September 19th is National Jelly Roll Day!

(It's also National Talk like a Pirate Day but we'll ignore that.)

What is a Jelly Roll and what can you do with a it?

A Jelly Roll is a collection of 2.5" wide strips! You can make dresses, quilts, rugs and anything else that would require pre-cut strips.

Come in to see what we offer in Jelly Rolls!

XP1 Blow-Out!

Brother has introduced the Innov-is Luminaire XP2 and we still have XP1s!

Have we got a deal for you!

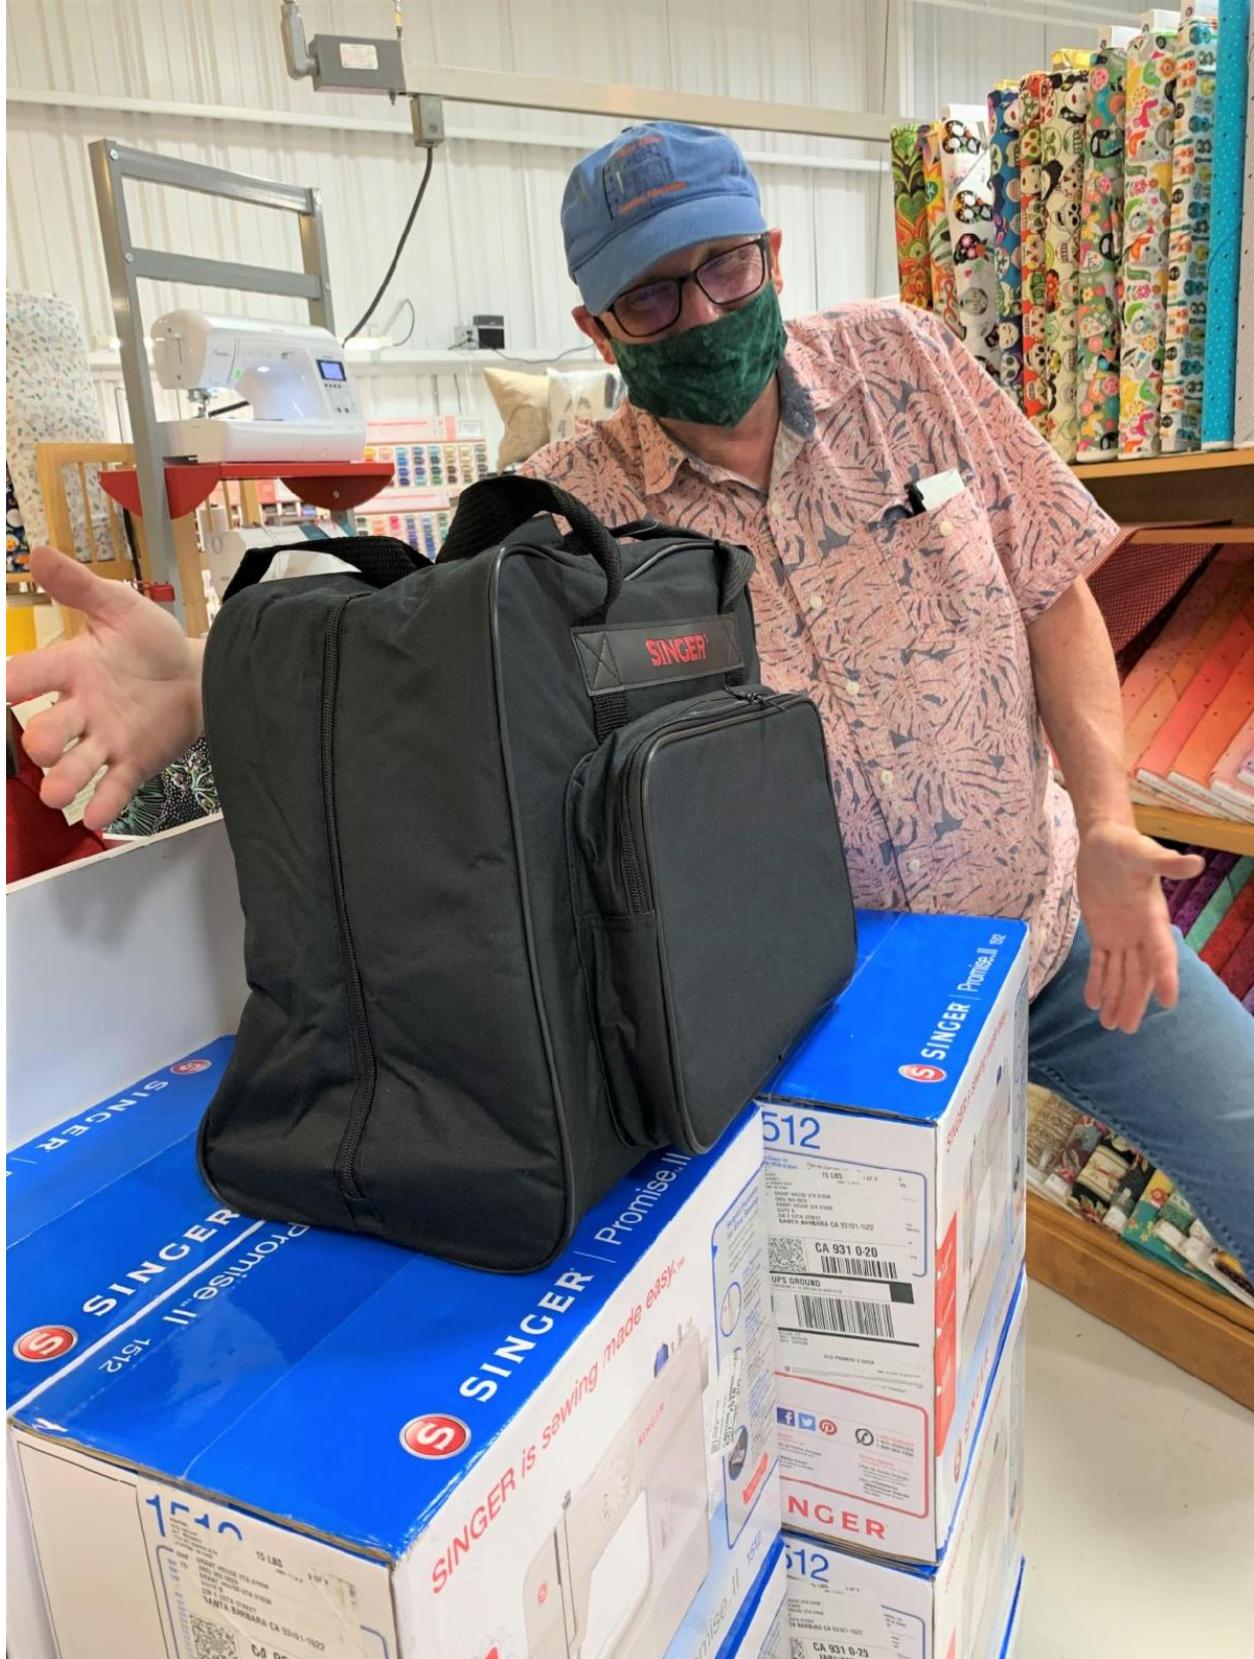

You can choose to get the XP1 Luminaire Sewing and Embroidery machine by itself or with our magnificent package. Our package includes the Luminaire machine (obviously), the Upgrade Kit including a large hoop, couching and dual couching embroidery kits and a software upgrade, the Brother Luminaire XP1 Bundle with luggage, thread and PEDesign11 software, the XP1 Playbook, and the XP2 Upgrade which transforms the XP1 into the new XP2.

This is an incredible deal and you'll be surprised by the savings. You'd be hard pressed to find this XP1 bundle anywhere else.

We have one on display and you're welcome to come into the store to discover what a Luminaire can do. We have three Luminaire XP1s left; if you're interested, act fast!

**How's the Christmas List
coming along?**

We just received some very special buys in the store that would be great gifts for beginner sewers. We've got the Singer Promise II, a very basic machine, for \$179. This package includes an indispensable carrying case valued at \$50! We also have the Singer Tradition, a step up from the the Singer Promise, for \$229, also with the handsome carrying case.

This is in addition to the Juki HZL-K85; the Brother Pacesetter PS200T, PS500 and PS700; the Husqvarna Viking Emerald 118; the Husqvarna Viking Jade 20; the Pfaff Ambition 610 with built in walking foot; the Janome 3160QDC, the Janome 4120QDC, and lots more.

You can also find all the basics (and not so basic) to put together a lovely package for a sewer of any level.

There's something for everyone.

And don't forget the most person ever - yourself!

In Other News ... We're Still Hiring!

We need someone with stamina. Someone who is able to leap tall buildings in a single bound. We need a superperson! No, seriously, there's a lot of running around, lifting and multi-tasking. It's a challenge but the rewards abound.

People oriented? Helpful? Curious about sewing machines and all their capabilities? Do you love to share the joy of sewing with others? Want to feel the satisfaction of helping someone overcome their sewing challenge?

Ideally, our candidate is bi-lingual (Spanish/English), eager, motivated, outgoing, computer literate and able to work a full week. Wings, cape and unitard optional but desired.

Come in for a Sales Associate application! Resumes welcome.

Service Day
Thursday, October 1, 2020

Due to the popularity of Ted, our terrific technician, the earlier you bring your machine in advance of each Service Day, the better.

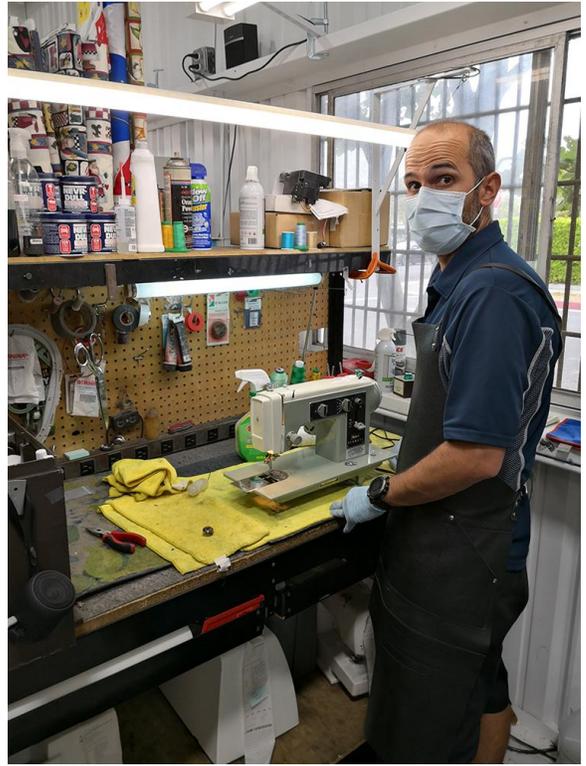

Machines are taken first come first serve.

All home sewing, embroidery, overlock and coverstitch machines welcome!

Drop off:

M-F 10-5:30, Saturday 10-3

Service Center: 336-B East Cota St.
(805) 962-0929
