What do you get when you combine the color and contrast with angles and orientation? You get a dynamic quilt with movement and a touch of three-dimensional illusion. I love classic quilts and their elements. I've been experimenting with variations on Lone Stars and Diamond Piecing for the past couple of years and these quilts are the results from two years of experimentation and improvisation. You can go vertical or horizontal. You can use any combination of colors in your strips. You should use two colors with some contrast for your backgrounds in order to differentiate your row of diamonds. These quilts are Jelly Roll friendly

SEWING & QUILTING CLASSES

Infinity Fan

Instructor: Sarah Bond

Friday May 8 10:30-4:00pm \$65

Infinity Fan is a contemporary design inspired by a traditional Grandmother's Fan quilt owned by quilt scholar Merikay Waldvogel. I made this version in scrappy strips with a tomato red background to emulate the original. The construction is a very simple paper piecing technique on a curved or straight paper foundation. You can make this quilt or design your own in any size and any configuration. This quilt is made up of 64 blocks; 40 curved fans and 24 straight sections. I'm experimenting with other designs in different sizes that still give this never-ending feel.

Thread Mastery Workshop

Instructor: Gail Kessler

Wednesday May 20 10:30-3:00PM \$65

Learn all about thread and needle weights, stitch selections, tension, and sew much more! You'll create a sampler using various weights of threads and master the mysteries of all those numbers! **Thread, needle and fabric kit \$29**

Lone Star and Lone Star Variations

Instructor: Sarah Bond

Saturday June 20 10:30-4:00pm \$65

Learn to turn out a variety of dazzling Lone Stars that match at the corners and lay flat! The Lone Star is one of the visually simplest and yet most stunning of traditional quilt patterns. This is a class for intermediate quilters or advanced beginner quilters with a love of precision and craftsmanship. This class is not appropriate for beginning quilters unless they are experienced with other sewing arts. The class will start with a small lone star so that students can work through the basic construction techniques. We will then move on to planning and executing a larger version.

Coming Full Circle

Instructor: Sarah Bond

Saturday July 18 10:30-4:00pm \$65

I've been exploring circles lately and I've really been enjoying combining them in different ways. I'll be presenting three kinds of circles to you for your quilting pleasure. The first is String Fan Circle, paper pieced from multiple strips of fabric. The second is a Swirly Circle, which involves curved piecing, (don't be scared). The third is a Checkerboard Circle, paper pieced from constructed strip sets. All of these circles can be combined into one quilt or used separately. I'll be providing a square shoulder and a hexagonal shoulder to use in designing the set for your quilt. I will provide patterns and instructions.
