Additional Fabrics Needed:

- 1—Premade Kitchen Towel 20" x 27"
- Fusible Web—2/3 Yard

Sewing Directions:

1. With right sides together, fold the towel with 15" on the top side and 12" on the bottom side (the top side will measure 20" x 15"). Press well leaving a crease. The folded edge will be the top of the apron.

2. Take the bottom two corners of the top side and fold up 6", this will put the edge 3" from the top fold. Press well leaving a crease. These will be your front pockets.
3. The appliqué pieces will be applied before the pockets are sewn down. Be sure to appliqué through only one layer of towel. You may wish to fuse all pieces in place first, then unfold the towel to appliqué.
4. Center the green print 21" x 1" strip right above the bottom fold, as shown. Trim to fit perfectly. Fuse and appliqué in place.
5. Center the pink print 21" x 2" scallop borders at the top and bottom edges, as shown. Trim to fit perfectly. Fuse and appliqué in place.
6. Lay out the hearts, birds, and bird wings on the center pocket section, using the diagram as a guide. Fuse and appliqué in place. You may choose to hand or machine stitch an eye on each bird.
7. Make the apron ties:
 - With wrong sides together, fold one short end of 4½" x 30" strip in ½" and press.
 - Fold the strip in half lengthwise (wrong sides together) and press.
 - Open up the strip, so you can see your center. Fold the raw edges to the center crease and press.
 - Fold in half lengthwise along the original center crease and press.
 - Topstitch close to the edge on all sides.
 - Make two ties.
8. Insert ½" of the raw edge end of one apron tie in between the top fold of the apron on the left side. Pin in place. Repeat with the other apron tie on the right side.
9. Topstitch along the top folded edge of the apron, down both side edges of the pocket section, and along the bottom fold of the pockets, through all layers. This will secure your ties and pockets in place.
10. Topstitch on either side of the red heart to make three separate pockets.
