

Basic Sewing Machine Cleaning – Cheryl Taylor, Instructor

You know all that “stuff” you find in your dryer lint collector? Well, your sewing machine collects similar “stuff” in it. We’ll learn where and when to clean your machine, how often to change your needle and basic cleaning tools that are a must-have.

Instructor Provided Kit Materials - Class Kit Fee: \$3.

- cleaning cloths
- cleaning tips
- sewing machine oil

Supplies List:

- Sewing machine that you are familiar with. It does not need to be clean, as student will learn how and where to clean machine.
- foot control for machine
- plug-in cord for machine
- Operations Manual for machine
- accessories for machine
- thread spool lock
- Cotton thread
- cleaning brush provided with your machine or an equivalent cleaning brush
- small screwdriver provided with your machine (please make sure it has the proper head on the screwdriver for the type of screws used on your machine)
- sewing machine needles
- thread
- scrap fabric
