CUSTOM LASER CUT GUIDELINES

Thank you for trusting me with your quilt project. Please read the following guidelines so I can do the best possible job for you.

I custom laser cut between teaching, vending and running the Flynn Quilt Frame Company warehouse. Not all jobs can be cut swiftly. Please be aware of my variable timeline.

The charge for custom cutting is \$60 plus shipping. If, because of the size, your project happens to require additional cuttings, there is an additional \$40 -\$80 charge. I will let you know about any increase in the fee before I laser cut or charge your card.

I cannot "fussy cut" or cut strips longer than 48".

The laser cannot cut polyester, any synthetic blends or Minkee. Please call if you have any doubts about your fabric.

The fabric should be either all washed or all unwashed, not a mix. Please neatly package your fabric and label it accordingly if fabric placement is not exactly as in the pattern.

Please only send standard bolt width fabric, no 60" or 108".

Please do not send antique fabric or one-of-a kind fabric. In the very rare event of a laser misfire/miscut that ruins fabric, I am only responsible for the replacement value of the fabric with an equivalent commercially available fabric; fabric goes out of print quickly and an exact replacement may not be available.

I will be in communication with you either by phone or email as the project progresses. Please feel free to call (800) 745 3596 or email flynnquiltsupport@mcn.com

Thank you very much. Please print and complete the form on the next page & enclose with your project:

DATE_____

SHIPPING ADDRESS:

NAME_____

ADDRESS_____

TELEPHONE_____

EMAIL_____

NAME OF QUILT_____

DESIRED SIZE in inches, for example 60" x 80"_____

Measurements of the block(s) and specify the finished size of the block._____

Description of what colors go where
etc._____

Sometimes I can optimize the quilt block's units to save you fabric. Please initial to indicate that I have permission to optimize the block or if you prefer the block to be exactly the way you send it even if it requires more fabric. An example would be a four patch of 2" blocks of exactly the same fabric and color could be combined into one 4" block.

Optimize_____ Exact_____

Copyright laws protect the designer of many quilt patterns in magazines and quilt books – you can use copyrighted patterns for your personal use but not for sale. Please sign below to acknowledge that this project either is copyright free, your own design, used with permission or that you are using the pattern for personal use only.

Sign_____ Print your name_____

Leftover Fabric – I will send back any unused fabric but if you want extra pieces cut from the leftovers, please initial here_____ and describe what you want cut. _____
