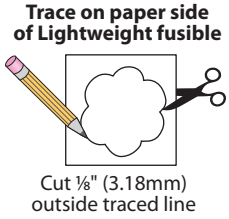
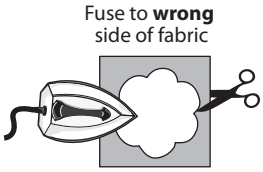
Fusible Appliqué (FA) Technique

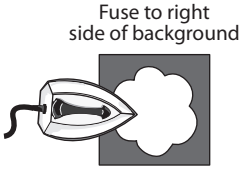
A. Trace the appliqué shape on the paper side of the lightweight fusible. If there are multiple shapes, leave ¼" (6.35mm) between them. Cut out ⅛" (3.18mm) outside the traced line.



B. With the adhesive side down, place the appliqué shape on the **wrong** side of the fabric. Press to fuse following the manufacturer's directions. Cut out on the traced lines. Peel off paper backing.



C. Place the appliqué shape, adhesive side down, on the background (right side up). Fuse in place following the manufacturer's directions.



D. Use a coordinating thread and a small buttonhole or zig-zag stitch to secure and finish the edges of the appliqué pieces.
