For the Tote Bag,

There is some flexibility for you to choose how you wish to make your bag. For example, you can make it with canvas or quilting cotton, with or without a liner, and straps with webbing or fabric. You could also add stabilizer to make a stiffer bottom.

I made mine with canvas outside, a quilting cotton liner, and webbing straps. (No Stabilizer, because I tend to crumble mine up when they are not in use.)

- Outside - ⅔ yd (or 1 yd, if you are using for straps too)
- Liner (Optional, but recommended) - ⅔ yd
- Straps (if not using fabric:) Webbing - 1 inch wide, 2 yards
