# Large Square Disappearing 9 -patch

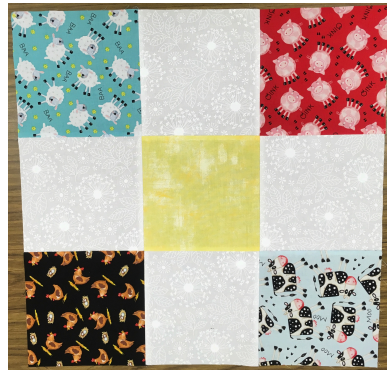

# Cutting Instructions:

Be sure to straighten your fabric before sub cutting.

1. Cut (5) 8" squares from each of the animal fabric and the lemon drop grunge.
2. Cut (20) 8" squares from the white fabric.
3. Cut (5) 2.5" strips from the white fabric. Set aside.

## Assembly:

Arrange your 9 patch blocks so that you have an animal print in each corner and the yellow in the center with whites filling in the 4 remaining patches.

Sew together in your preferred method.

Your blocks should measure about 23" square (unfinished). You now need to cut them in half vertically and horizontally. Use your ruler on the seams to cut the center blocks at 3 3/4". The seams are more stable and straight than cutting from the side of your blocks. Cut your first cut in one go and cut the resulting pieces separately, don't try to stack and wack.

Arrange your blocks in an agreeable fashion (there is no right or wrong way). Use a 4 across by 5 down layout to achieve the stated size.

Sew your blocks into rows, then your rows together. Make sure to press your seams well.

## Borders:

Sew (3) 2.5" strips together. Fold in half and lay through the center of the quilt (top to bottom), matching the cut ends on one side of the quilt.

Place a pin in the borders at the edge of the quilt and cut there. Pin the ends and center. Then sew on your side borders, easing as necessary.

Sew your scrap ends and the remaining (2) 2.5" strips together and repeat the steps above to cut your top and bottom borders. Sew.

## Quilting:

Quilt as desired. The example was quilted using the Moo, Ewe and Piggy 2 pattern by Patricia Ritter.
