

Supply List:

- Fabric - Scraps would work well, make sure your pieces are at least 4" x 6".
- Rotary Cutter
- Add a quarter ruler - (one with a slant on the adjacent edge is helpful, but not necessary - There are some of these available at Gruber's.)
- Pencil for marking the pattern
- Scissors that can be used to cut paper pattern
- Sewing machine with thread & needle
- Pins

Optional Supplies:

- Personal small cutting mat to keep in front of you while you work - saves you from getting up so often
- Seam roller - some like to use them rather than pressing seams. If you have one, bring it to see if you like it!
- Some like to use a glue stick to hold the first piece in place

Class outline:

We will be spending the class time practicing our skills by making the traditional pineapple pattern. Scrap fabric will work just fine for this, if you are wanting to use it as a practice pattern. See picture below for a sample of three common ways to design your block with color schemes. We will spend the class time working on simple blocks for you to use as you wish after class. It is not too hard of a pattern, but it gives you a chance to practice paying attention to color placement and following the number sequences.

** If needing to purchase fabric - fat quarters or $\frac{1}{8}$ yard cuts would work.
