

### Supply List:

- Fabric - Scraps would work well, make sure your pieces are at least 4" x 6".
- Rotary Cutter
- Add a quarter ruler - (one with a slant on the adjacent edge is helpful, but not necessary - There are some of these available at Gruber's.)
- Pencil for marking the pattern
- Scissors that can be used to cut paper pattern
- Sewing machine with thread & needle

### Optional Supplies

- Personal small cutting mat to keep in front of you while you work - saves you from getting up so often
- Seam roller - some like to use them rather than pressing seams. If you have one, bring it to see if you like it!
- Some like to use a glue stick to hold the first piece in place

### Class outline:

We will be spending the first hour learning the technique of foundation paper piecing, using the provided heart pattern. Scrap fabric will work just fine for this, if you are wanting to use it as a practice pattern. This pattern has options for a background color and up to four different heart colors.

\*\* If needing to purchase fabric - fat quarters will work well, or fat  $\frac{1}{8}$  would be fine as well. Just remember the pattern is meant to have a separation in the heart colors, so plan accordingly.

Once we have finished with the first heart pattern, we can work on the second heart pattern that practices combining multiple pieces together! The more practice, the better!

Both these patterns will be provided to you once you arrive to class!

First Pattern:

Second Pattern:

\*\* These patterns are resized to fit on this page, they will measure 6" x 6" when finished
