

# Joy to the World Class Prep

## 76-1/2" x 80"

After making two rows of the squares of flying geese located between the houses and packages row, I decided to substitute that row with something less frustrating, hence nutcrackers and flannel. We have made a few other fabric substitutions, adding a top and bottom border and switching to flannels for the ribbons.

Lightly starch and press your fabrics before cutting out. Please label the fabric as you cut.
