Clue #1: When choosing fat quarters, look for a variety of print sizes and color values that work with each other and your focus fabric.

Clue #2: For the throw size, think of two sets of two coordinating FQ and two sets of three. For the queen size, think of five sets of two and five sets of three!

Prep Before Class

- Iron your fabrics.
- Cut your fat quarters into 2-1/2" strips. You should get seven from each fat quarter.
- Cut your focus fabric into 16 6-12" squares. Save remaining fabric. You might need it!
