

Customizing designs by adding lettering, combining designs, and more

Create your own machine embroidery patterns with Bernina Creator 9 software

Instructor: Heather Mayes

Location: In-person attendance is strongly recommended as we have many supplies and tools for you to play with will not be available to Zoom attendees.

Class Description:

We'll walk through customizing machine embroidery patterns by adding lettering, combining designs, removing elements, changing thread color sequence, and more! Example starting and finished designs will be shared with all attendees.

Note: you do not need to have a Bernina sewing machine and embroidery module to use this software! The software can be purchased separately and designs can be saved as a wide variety of file types (PES, PCS, SEW, EMB, ...). Other embroidery design software is available; it is likely that the concepts will apply to them and their instruction manuals can be used to resolve differences. However, we do not have access to other software to predetermine differences.

Skill level:All. No previous experience required. All skill levels will learn helpful tips and tricks.

Please complete before first class:

- Optional:** If you wish to follow along and practice the tools we learn, install Bernina Creator 9 on your computer and verify the installation by opening the software, after which the software can be immediately closed. There will not be time in class to troubleshoot installation problems; please google/reach out to Bernina for any help.

Supplies:

- Optional:** bring a laptop already installed with Bernina Creator
