

# Mav Pack: LindsHandmade (March 2025 Bag of the Month)

**Instructor:** Patten Laurel

**Location:** Treelotta (In-person attendance is assumed. Please let us know if you plan to join us via Zoom instead.)

**Class Description:** Ready to take your bag-making skills to the next level?

The Mav Pack Sewing Pattern is perfect for sewists with some bag-making experience looking for an intermediate challenge. This pattern incorporates advanced techniques, like installing a curved zipper and turning the bag through an interior pocket opening, resulting in a polished, professional finish—no binding required!

## **Please complete before first class:**

- **Read** the pattern to familiarize yourself with it and make sure you have all the supplies you need.
- **Test your sewing machine to make sure it is in working order and you have all the feet needed for this project.** Please pack extra needles and bobbins. If not very familiar with your machine, please bring your manual for your reference
- **Cut all pieces as noted on the Cut List at the top of page 2 and on Prep Work, do steps 1 & 2. Seal the edges of your webbing after you cut it.**
- **PLEASE** make sure you have cut out all your pieces and applied the interfacing as required so we will be able to jump right in and start making your pack!
