

Straight Line Quilting

Instructor: Marcia Salverson

Location: Treelotta

Class Description:

Ready to take the next step after our Intro to Piecing class? Or maybe you're just looking to try quilting on smaller projects? This class is perfect for building your skills and confidence! You'll learn how to quilt using straight-line techniques with a walking foot—an ideal approach for beginners or those wanting a clean, modern look.

Please note: This class focuses solely on quilting. Binding techniques are not covered, but you can [check out our separate Binding Basics class offered at Treelotta.](#)

Skill level: Beginner

Please complete before first class:

- ☐ If you taken the Intro to Piecing class, please bring in your completed quilt top
- ☐ If you haven't taken the class, please bring in a completed top that measures 41" or less (wall hanging size)
- ☐ Please ensure your quilt top is complete-we will not have time to sew additional borders on or finish your quilt top in this class-it should be ironed/pressed.
- ☐ Backing should be prepared for class-use a ¼' to ½" seam if you are piecing two pieces of backing together to meet the size requirements for your quilt. Iron the seam open and have backing fully ironed/pressed before class.
- ☐ Backing and batting should be about 3" larger on each side than the top.

Supplies:

- ☐ Sewing Machine – in good working order. Don't forget the power cord, foot pedal, and manual. You must have a basic knowledge of your machine.
- ☐ A Walking foot that fits your machine. This is important-please ensure you have one for your machine.
- ☐ Basic Sewing Supplies - Pins, thread (to blend with your front and back fabric), seam ripper, scissors, etc.

- ☐ 2" wide masking tape.
- ☐ [Gloves like Machingers](#)
- ☐ [Marking pens](#) that can be 'erased' when completed-these can be water erasable, air erasable, iron erasable, or chalk. We will discuss pros and cons of these items in class and many types are available to purchase in the store.
- ☐ A finished quilt top, backing and batting.
 - ☐ Backing and batting should be about 3" larger on each side than the top.
